On page 5, paragraph [0012] "Bed 50" must be changed to -Mattress<sup>52 -</sup>. In NK  
paragraph [0014], line 6, the word "Fastener" must not be capitalized.

Claims 2 and 6, and their dependent claims 3 and 4, are objected to because by stating in lines 1 of the claims "said fastener member includes", it is confusingly suggested that the fastener, not the frame member has the detent disposed thereon. Correction to clearly state that the frame not the fastener has the detent disposed thereon, is required.

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Hutton et al.

In figure 2, note support member 32, frame 68 and fastener 86, attachable to a bed skit and movable within slot 78, the above elements inherently adapted to operate as desired by applicant, to accomplish the results desired by applicant.

Claims 5, 7, 8 are allowed.
